

LOST? Here's how to find you way:

- each room number is 4 digits long
- Zones **1-5** are in the **Rindge Building**
- Zone **6** is in the **Arts Building**
- the first digit indicates the **floor**
- the second digit indicates the **zone**
- the last two digits indicate the actual room number
- the room plaques and flooring are color coded to match the colors on the map

Here are some examples:

- Room **2309** = **2nd floor**, **zone 3** (Rindge)
- Room **1613** = **1st floor**, **zone 6** (Arts)
